

The high valley of Lenzerheide-Valbella lies in an idyllic, park-like setting at an altitude of 1500 metres and is the perfect base for fun-packed holidays. The competitive range of facilities with a host of different sports is perfect for activity-oriented persons of all ages as well as for the whole family.

In summer, the area around Heidsee Lake is a dream for hikers and bikers in their quest for relaxation. 250 km of signposted cycle tours take you to the most beautiful corners of the region.

In winter, Lenzerheide-Valbella is an eldorado for families, snowsport enthusiasts and connoisseurs with 155 km of groomed slopes available for fantastic downhill runs. Heaven for carvers and snowboarders! And, in addition, the expansive winter hiking area promises unalloyed delights.

Information Lenzerheide Tourism | Voa principala 68 | CH-7078 Lenzerheide | Phone +41 (0)81 385 11 20 | www.lenzerheide.com

How to get there By postal bus from Chur to the bus stop "Post Valbella" in about 30 minutes and then a 25-minute walk to the youth hostel. Junction "Valschameala, Sartons" at the local entrance.

Adequate parking is available in front of the hostel (chargeable).

Valbella

Youth Hostel:
The hostel with the finest view

**The Swiss
Youth Hostels. The most exclusive hotel chain worldwide.**

Valbella Youth Hostel Whether summer or winter – in the Valbella-Lenzerheide Youth Hostel everybody feels perfectly at home. The hostel is ideal for winter sports enthusiasts and for active families in summer.

Exclusive location The youth hostel enjoys an exclusive location in open countryside, with splendid views of the Heidsee Lake and the Rothorn mountain. Ski-slopes and hiking trails are just outside the door.

A modern youth hostel The hostel's design is characterised by its simplicity and functional room layout. The lounge area is open plan. Comfortable armchairs offer an inviting spot in which to pass away the time and the large windows make it light and bright while providing an attractive outlook. The youth hostel is also accessible for disabled persons.

Minergie building Energy for the heating and hot water is provided by wood pellets and solar collectors. The entire construction fulfils the requirements for the Minergie label for sustainable building.
